OMEF GROUP®

FORESTRY EQUIPMENT MANUFACTURER

WOOD SPLITTER

SPACCALEGNA OMEF-GROUP® permette di ridurre notevolmente il volume del materiale legnoso, ottimizzando e velocizzando le successive operazioni di carico, cippatura e triturazione.

- **con punta conica filettata a 4 principi**, per rompere in più parti il legno pre-tagliato. Azionata da un motore oleodinamico, penetra nel legno aprendone le fibre e lo spezza.
- **con punta fresa ceppi,** per eliminare ceppi da strade, parcheggi, parchi e boschi.
- **con punta trivella,** di varie dimensioni in base al diametro di perforazione richiesto.

Le sue dimensioni compatte permettono di eseguire lavorazioni rapide e comode.

OMEF-GROUP® WOOD SPLITTER allows to reduce considerably the volume of logs and to speed up the consequent loading, chipping and shredding operations.

- **with conical drill,** can break a piece of pre-cut wood into multiple pieces. Driven by an orbital hydraulic motor, penetrates the wood during its rotation, until the wooden fibres open and the trunk brakes.
- **with stump planer,** gets rid of the stump completely and in a short time, in roads, parking lots, parks and woodland.
- **with auger drill,** of different dimensions according to the drilling diameter required.

The machine's compact dimensions enable to manoeuvre with absolute precision and rapidity.

FENDEUSE À BOIS OMEF-GROUP® permet de réduire significativement le volume de matière ligneuse, optimisant et accélérant les suivantes opérations de chargement, de déchiquetage et de concassage.

- **avec foret conique à 4 principes**, peut briser un morceau de bois pré-découpé en plusieurs morceaux. Un moteur hydraulique orbital, pendant la rotation, actionne la vis conique filetée à 4 principes, qui pénètre dans le bois jusqu'à en ouvrir les fibres en les rompant.
- **avec raboteuse de souches**, pour enlever les souches des routes, des parking, des parcs et des bois.
- **avec pointe pour foret**, de dimensions différents selon le forage demandé.

Ses dimensions compactes permettent des opérations de travail rapides et faciles.
